

# AYUSH KUMAR

Full Stack Web Developer

+91 7289934666 | pawar85060@gmail.com | Git/ Github | linkedin | Portfolio | Coding Ninja | Dehli NCR

## Summary

---

MERN Stack Developer skilled in JavaScript, React, Node.js, and MongoDB, with a focus on developing efficient and scalable web applications. Experienced in both backend and frontend development, with proficiency in debugging and problem-solving, demonstrated by solving over 150+ DSA problems. I have gained hands-on experience during a front-end development internship, working with web technologies and version control (Git). Continuously expanding my expertise in Python and taking on new challenges to improve my skill set.

## Skills

---

- NodeJS, Express.js, JavaScript, React.js, MongoDB
- ShadCN, JWT, Authentication, Debugging, Redux, Postman
- HTML5, CSS3, Tailwind CSS, GitHub

## Experience

---

### Frontend Intern

08/2024 – 09/2024

*Unified Mentors*

*Remote*

- Developed a student-teacher appointment portal using React and Node.js.
- Implemented user authentication, reducing appointment scheduling errors by 20%.
- Gained hands-on experience in full-stack development, improved my skills in React, Tailwind CSS and Express.js.

## Projects

---

### Note Worthy

07/2024

*React, Tailwind CSS, Node.js, Express, MongoDB, JWT*

- Built a note-taking application with React, Tailwind CSS, Node.js, Express, MongoDB, JWT, and bcrypt.
- App with features for login, logout, and CRUD operations.
- Used bcrypt for password hashing and JWT for secure user authentication sessions.

### Hirrd - Job Application Portal

09/2024

*React.js, Shadcn, Tailwind CSS, Supabase, Clerk*

- Developed a job hiring platform with a modern UI and Custom Hook, focused on recruiter-candidate interactions.
- Integrated Supabase for backend data management and Clerk for robust user authentication and secure access control.
- Implemented a system where only recruiters can post jobs and candidates can track their applications.

## Education

---

### Master in Computer Application

07/2023 – Present

*Manipal University Jaipur*

*Jaipur, India*

## Certifications

---

- React Dev - Meta, Coursera
- Technical Support Fundamentals - Google IT Support, Coursera
