EDUCATION

Manipal University   *Expected Graduation, June 2025*
Masters in computer application
SGPA: 8.1

SKILLS

Programming: JavaScript, HTML5, CSS, Node.js, React.js, C

Tools: Git/ GitHub, tailwind CSS, Redux

PROFILE SUMMARY

Targeting **Frontend Developer** roles with an organization of high repute with a scope of improving knowledge and further career growth.

- Ongoing learning in MERN stack **(MongoDB, Express.js, React, Node.js)** Data Structures and Algorithms (**DSA**).
- Experienced in creating visually appealing and intuitive web applications, adept at **debugging**, **code optimization**, and collaborating in team environments.
- Optimized website performance, implemented Code Quality, and reduced technical debt, resulting in measurable improvements.

PROJECTS

Blog Application with Authentication   (Github [https://github.com/ayush-23-30/Write-Your-Blog])   **June 2024- Current**
Tools: React, App-Write, Redux
A full-featured blog application enabling users to register, authenticate, and manage their blog posts seamlessly.
Responsibilities:

- Implemented user authentication and authorization using App-Write, ensuring secure access to the application.
- Managed the backend entirely with App-Write, handling data storage, retrieval, and user management efficiently.
- Utilized Redux for state management to ensure consistent and predictable application state.

Ease Cart   (Github [https://github.com/ayush-23-30/Cart-Ease-/tree/main])   **June 2024**
Tools: React, Routing, Context Api
Created a responsive shopping cart application in React with real-time updates, using Context API and **use Reducer** Hook for state management.
Responsibilities:

- Implemented routing and dynamic updates in a React shopping cart, enhancing user experience with real-time item additions and removals.
- Features robust search and filter options, allowing users to easily find and sort items based on various criteria, enhancing the overall shopping experience.
- The shopping cart application ensures a seamless experience across all devices with real-time updates for adding and removing items.

Certification

- **React Basics and Advanced Completed -** the React Basics course on Coursera, gaining foundational knowledge in React development.
- **Google IT supports** - Technical Support Fundamentals, authorized by Google and offered through Coursera.
